SERAFIM PUSHKIN

Senior User Acquisition / Performance Marketing Manager

Moscow | serafim.push@gmail.com | Telegram: @Seraphimpushkin

PROFILE

Senior UA / performance marketing specialist with 3+ years of hands-on mobile marketing experience. Managed Meta Ads, TikTok Ads, Google Ads and in-app/OEM channels, using AppsFlyer, Adjust and AppMetrica. Subscription app experience includes RevenueCat integrations and post-install monetization analysis. Focus: UA economics, creative testing, campaign scaling and AI-assisted reporting and creative workflows. Built an AI creative factory that produces 40+ unique creative concepts and hundreds of resizes per week for the 7 projects I run as a media buyer.

KEY RESULTS

5.58×
Belarus mobile GMV YoY with 3% lower spend; first 37 weeks of 2026

+61%
Kazakhstan mobile GMV YoY with 4.8% higher spend; first 37 weeks of 2026

$660k
monthly spend on my sources for a MENA subscription project, March 2024

$100 → $18
trial CPA reduction during the launch and scaling of a subscription project

40+
unique creative concepts per week plus hundreds of resizes · AI creative factory for 7 projects

EXPERIENCE

2leads (Тулидс) | Senior UA Manager
Nov 2025 – present

- Own performance projects end-to-end: assess launches, build media plans, connect sources, launch and optimize campaigns, allocate budgets and prepare client reporting.
- Define creative needs, write scripts and briefs, coordinate production and revisions, and create some assets with AI tools.
- Reconcile ad platform and MMP data; build reports and dashboards and automate data collection and processing.
- Built an AI creative factory that produces 40+ unique creative concepts and hundreds of resizes per week for the 7 projects I run as a media buyer.

Results: in the first 37 weeks of 2026, mobile GMV grew 5.58× YoY in Belarus with 3% lower spend and 61% in Kazakhstan with 4.8% higher spend. Ad spend / revenue ratios: 3.09% and 6.49%, respectively.

Project work / short-term contracts | Traffic Manager
Jun 2025 – Oct 2025

- Launched and optimized mobile gaming and subscription app campaigns; analyzed CPI/CPA, post-install events, retention and subsequent monetization.
- Worked with a developer to integrate Google Ads, AppsFlyer and RevenueCat, implement event transmission and verify attribution and subscription revenue data.
- Investigated discrepancies between ad platforms, MMP and product data; assessed scaling potential using acquisition cost and actual and forecast monetization.
- Defined analytics and advertising integration requirements for small product and engineering teams and checked implementation results.

AdQuantum | Media Buyer
Feb 2025 – May 2025

- Managed several mobile apps, mainly through Meta Ads and TikTok Ads: launch, optimization, scaling, creative analysis and project economics.
- Worked under agency commission and profit-share models; total agency profit across active projects averaged approximately $1k per day.
- Developed creative hypotheses with the team, directed tests and scaled combinations that met target economics.

EXPERIENCE — CONTINUED

KamaGames | **User Acquisition Manager** — Aug 2024 – Dec 2024

- Managed UA for several social casino apps through TikTok Ads, Google Ads, ironSource and other channels, using CPI/CPA/ROAS, LTV, retention and an internal revenue prediction model.
- Scaled TikTok acquisition to approximately $5k per day, with forecast payback of about 110% under the internal D720 model.
- Used AppsFlyer, internal analytics and BI tools; adapted campaign structure and creative tests for different apps and markets.

GoMobile | **Traffic Manager / User Acquisition Manager** — Aug 2023 – Jul 2024

- Managed several client UA projects across Meta Ads, TikTok Ads, Google Ads, Yandex Direct, VK Ads, Unity, Bigo Ads, Appnext, Petal Ads, Mintegral and OEM / managed in-app sources.
- Used AppsFlyer, Adjust, AppMetrica and anti-fraud tools; prepared client reports, audits and recommendations on media allocation and traffic quality.
- Managed Saudi Arabia and UAE for a MENA subscription streaming project. Spend on my sources reached $660k in March 2024; other months were approximately $200–300k.
- Trial CPA fell from about $100 to $18 during launch and scaling. Together with the team, tested 500+ unique creatives over six months, excluding resizes.
